## SCHEDULE OF B & B CHARGES

The following charges are made to cover additional cost of balling and burlapping deciduous trees and shrubs that are not listed B & B. The size of ball for most stocks is in accordance with the A.A.N. "Horticultural Standards" recommendations.

These charges are based on a **carefully dug**, solid ball of earth, laced with rope, and handled according to the best nursery practice.

Ball Size	Each	Ball Size	Each
18" .....	\$ 4.00	46" .....	\$47.50

All B&B prices include loading on the truck, but does not include the cost of material for securing the load. Ropes should be supplied by the buyer.

All material with a 36" ball or over must be platformed, if we are to load the truck. If buyer loads his own truck, platforms are optional.

All material shipped in foliage that has to be covered, will be charged extra to the buyer.

All transportation charges will be paid directly to the Transportation Company.

### PLATFORM CHARGES

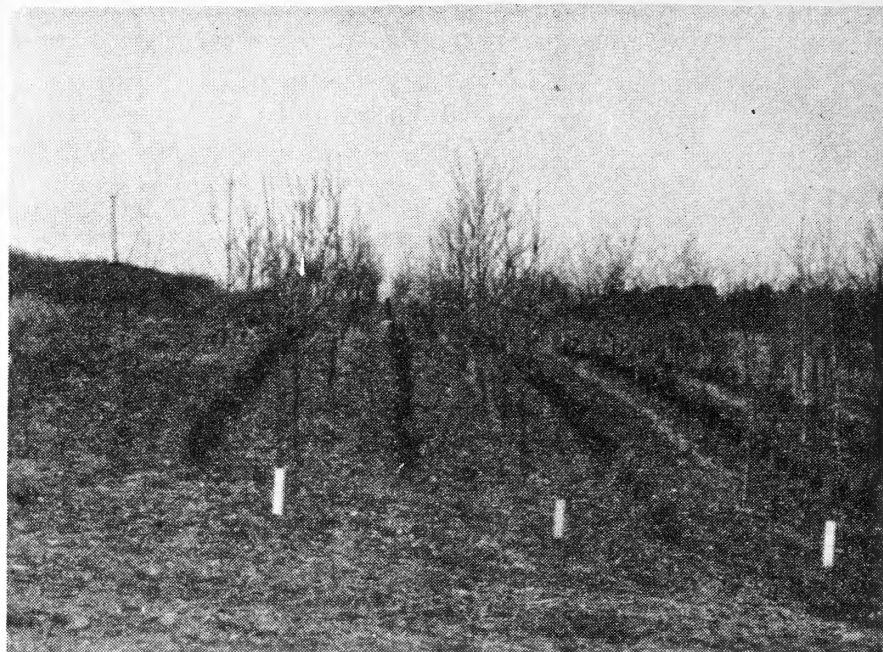

Any platform up to 36" will be \$10.00 additional with a \$5.00 refund when platform and ropes are returned.

Any platform 48" to 60" will be \$20.00 additional with a \$10.00 refund when platform and ropes are returned.
